

Main Question:

**What does a modern city *really* look like?**

Question 2:

**How do you show the process behind a coded project?**

Question 3:

**How much authorship am relinquishing by using pre-made open-source programs, libraries, and modules?**

Question 4:

**How can I computationally use people?**

# Case Studies

The Big Atlas of LA Pools  
Clipping Farms  
Amazon Mechanical Turk

Project Sidewalk

Hyperlapse <a href=" http://hyperlapse.tllabs.io/"></a>

Sensible City Lab

# Tools

## Currently Using

Twitter REST API / twython module  
pyprocessing  
git  
virtualenv

## Have explored

CouchDB  
Mapbox  
Tilemill  
Gephi  
GraphStream  
pygame  
Google Maps API
